Together towards National Cycling Strategy

# People Gathering

## How we found those "who cares"

- Cycling community in Serbia (activists, sport clubs, cycling enthusiasts)
- Interested institutions (Public health institutions (institutes), Province of Vojvodina, Serbian Roads, Ministry of Environment protection, Ministry of Construction, Transport and Infrastructure)
- NGOs - activists cycling organizations (Street for Bikers, Novi Sad bike initiative, Safe Pathways etc.)
- Sport Clubs - cycling sport clubs and unions
- Cycling Enthusiasts - people who are dedicated towards cycling

# First obstacles

How we could get these people for meeting?

- Pandemic measures - no live meetings!
- Government institutions - specific working (time) regime
- Tight schedules of all group members
- Starting from white paper or...?
- Who really takes care???

# Meetings before meetings

How we could be effective and time scaled?

- Small team of experienced professionals - to prepare the first draft of the National Cycling Strategy
- Respond to all institutional requirements and to align with Danube Cycle plans guidelines

# First steps forward

## How we could communicate more efficiently?

- No Viber/WhatsApp groups - too much information in the narrow windows!
- Regular emails - fighting with SPAM policies
- Google Drive - all data on one place and specific list of emails who can access
- Recommendations for new members from all group participants - from the beginning
- Newsletter made for specific group - various info about cycling and related issues
